All women are witches, and when they connect to source, trust their intuition, and use their magic, they can make medicine to heal themselves and the world. This book is a re-telling of Herstory, an overview of the different schools of witchcraft and the core principles and practices within them.

LIGHT IS THE NEW BLACK - REBECCA CAMPBELL

Light Is The New Black is a guidebook for a new breed of women who are here to be bright lights in the world. These women are modern-day lightworkers, who agreed at soul level to be here at this time in history, to bring us into the Age of Light (lead by spirit and the divine feminine). At the Peace Conference in Canada in 2009, when the Dalai Lama said 'The world will be saved by the western woman', it was a call to action for women throughout the West. Light Is The New Black is a response to that call. It guides these women to come back home to who they really are, at soul level, and embrace their uniqueness so they can light up the world in a way that only they can. Gone are the days of following someone else's well-trodden path. In order to succeed in this new age, everything must be an authentic expression of who we truly are. A down-to-earth, relatable mix of one girl's journey, channeled messages from The Universe, practical tools, and metaphysical marketing for this new social age, this book will reconnect you to the core of your being, so that you can use it to change the world.

CHILL[RENEUR - DENISE DUFFIELD-THOMAS

You might be scrolling through Instagram, seeing bloggers lounging on a beach with their laptop and thinking ... why isn't that me? Well, probably because you're letting negative money beliefs hold you back. Denise Duffield-Thomas made herself a millionaire by helping women realise that they could manifest anything they dreamed of if they took consistent action. In Chillpreneur, she teaches women how to align their goals with the universe and earn six figures (or more!) without losing their minds! In this book, you'll learn: How to find your true calling instead of jumping on the first 'good idea' you get. Why caring is such a huge part of being a successful (and happy) entrepreneur. How to quit procrastinating and get stuff done. How to let go of the guilt you have around money and accept that you deserve to be a kickass, successful businesswoman. Through exercises and real-life stories, Denise shows you how to avoid making the (many) mistakes she and other women have made, how to boost your confidence and smash through your money blocks, and start making your business dreams a reality. Unlike her previous books, this title is full of practical advice about taxes, pricing, converting, and making it to the top— and it will make you laugh out loud. Being a Chillpreneur isn't about being at the beach all day—it's about finding the path of least resistance to fabulous money. It's about taking a relaxed, imperfect approach and giving yourself permission to find the shortcuts for minimum effort and maximum results. It's about making twice the money for half the work.
